

Maurizio Poli, MSc PhD

Maurizio has over ten years experience in the field of assisted reproduction covering clinical, research and diagnostic positions. Maurizio received a Master degree in Medical Biotechnology from the University of Bologna, Italy. He worked as a clinical embryologist at the Human Assisted Reproduction Ireland in Dublin and at the Oxford Fertility Unit in the UK. Maurizio holds a PhD in Obstetrics and Gynaecology from the University of Oxford, UK where he carried out his research under the supervision of Prof Dagan Wells and Prof Tim Child. His primary research interest is the development of novel strategies for the assessment of human embryos competence. Maurizio is a co-founder of Reproomics, a company developing proteomic technologies to improve the outcome of IVF treatments. Maurizio is an ACE certified embryologist and an HCPC registered Clinical Scientist. He is also an ESHRE certified Senior Clinical Embryologist and an Associate of the Royal College of Pathologists in the UK. Maurizio currently works as a locum embryologist and scientific advisor for IVF clinics in the UK and Ireland.
